MARINE MICROPALEONTOLOGY

Contents Volume 23, 1993/1994

Research Papers

Radiolarian sedimentary imprint in Atlantic equatorial sediments: Comparison with the yearly flux at 853 m
D. Boltovskoy, V.A. Alder and A. Abelmann 1

Mid-Cretaceous faunal turnover of intermediate-water benthic foraminifera in the northwestern Pacific Ocean margin
K. Kaiho, O. Fujiwara and I. Motoyama 13

Faunal turnover of intermediate-water benthic foraminifera during the Paleogene in New Zealand
K. Kaiho, H.E.G. Morgans and H. Okada 51

Guide for Authors

Micro Notes

Man-made dispersal of microbenthos
L.J. Witte 87

Research Papers

A benthic foraminiferal proxy of pulsed organic matter paleofluxes
C.W. Smart, S.C. King, A.J. Gooday, J.W. Murray and E. Thomas 89

Biostratigraphy of Tertiary and Quaternary benthic bathyal foraminifers of DSDP Site 317 (Tropical Pacific)
E. Boltovskoy and S. Watanabe 101

Evolutionary ecology of *Globorotalia (Globoconella)* (planktic foraminifera)
R.D. Norris, R.M. Corfield and J.E. Cartlidge 121

Recognition of cyclic and non-cyclic environmental changes in the Mediterranean Pliocene: A palynological approach
G.J.M. Versteegh 147

Response of deep-sea benthic foraminifera to Late Quaternary climate changes, southeast Indian Ocean, offshore Western Australia
P. Wells, G. Wells, J. Cali and A. Chivas 185

Dinoflagellate cysts, paleoproductivity and upwelling systems: A Late Cretaceous example from Israel
Y. Eshet, A. Almogi-Labin and A. Bein 231

Dinoflagellate cysts of the Early Cretaceous North Atlantic Ocean
G. Ogg 241

Microfossil biostratigraphy of prograding Neogene platform-margin carbonates, Bahamas: Age constraints and alternatives
B.H. Lidz and T.J. Bralower 265

Recent dinoflagellate cyst distribution associated with the Subtropical Convergence on the Chatham Rise, east of New Zealand
X. Sun and A. McMinn 345
